HONOR CODE

Our Honor Code

- I. **We collaborate.** When we share ancestors we work together on the [same ancestor profiles](#).
- II. We care about **accuracy**. We're always aiming to improve upon our worldwide family tree and fix mistakes.
- III. We know mistakes are inevitable. We don't want to be afraid to make them. We **assume that mistakes are unintentional** when others make them and ask for the same understanding.
- IV. We know misunderstandings are inevitable. We try to minimize them by being [courteous to everyone](#), even those who don't act accordingly.
- V. We respect **privacy**. We [privacy-protect](#) anything we think our family members might not want public. If that's not enough for someone, we delete their personal information.
- VI. We respect **copyrights**. We don't knowingly copy information that's owned by someone else. If we ourselves want to preserve a copyright, we're clear about what's copyrighted so others don't accidentally copy it.
- VII. We give **credit**. Although most genealogy isn't copyrighted, researchers deserve [credit](#) for the work they've done.
- VIII. We cite **sources**. Without [sources](#) we can't objectively resolve conflicting information.
- IX. We are united in a [mission](#) to increase the world's common store of knowledge. We always respect copyrights and privacy, but we **keep information as free and open as possible**.

This code is a pledge that community members make to each other. The creators and hosts of WikiTree have also made a pledge: [to keep WikiTree free forever](#).
